

## Powering Canada's economy

Now's the time, Canada. The oil sands industry is ready to help strengthen our economy when we need it most. Costs are rising, incomes aren't keeping up and economic uncertainty has families struggling. That's why it's important to keep all sectors of our economy going strong — including our oil sands. Oil Sands Alliance is made up of Canadian Natural, Cenovus, ConocoPhillips Canada, Imperial and Suncor, representing five of Canada's largest producers.

## Innovating Canada's oil sands

COSIA is the innovation arm of Oil Sands Alliance. Since 2012, COSIA has focused on collaborative action and innovation in oil sands environmental technology.

COSIA brings together academics, researchers, innovators and others to collaborate on solutions that could produce improvements in four priority areas:

- Land
- Water
- Tailings
- Greenhouse gases

## By the numbers

### 503,000+ jobs

Canadians are employed directly or indirectly by the oil and gas industry.<sup>1</sup>

### \$153.2B to governments

generated through oil and gas taxes and royalties between 2018 and 2024.<sup>2</sup>
